

## Project Development Phase

### Project Development Delivery of Sprint 4

Team ID	PNT2022TMID05398
Project Name	Project - Signs with smart connectivity for Better road safety
Marks	8 Marks

## Signs with smart connectivity for Better road safety

### Objective :

- >> To replace the static signboards, smart connected sign boards are used.
- >> These smart connected sign boards get the speed limitations from a web app using weather API and update automatically.
- >> Based on the weather changes the speed may increase or decrease.
- >> Based on the traffic and fatal situations the diversion signs are displayed.
- >> Guide(Schools), Warning and Service(Hospitals, Restaurant) signs are also displayed accordingly.
- >> Different modes of operations can be selected with the help of buttons.

### Code for Registration and Login Credentials :

## Registration and Login Form :

The screenshot shows a web browser window with multiple tabs. The active tab is titled "https://script.google.com/macros/s/AKfycby8xOP0yi4p9\_5vGRdtJxc5ote3ShztzSUIsQcqVqzA/dev". The page content features a purple background with a pattern of white hexagons and lines. At the top, the text "Signs with smart connectivity for better road safety" is displayed. Below this, a light blue login form is centered. The form has a title "Login" and two input fields: "Enter the Username" and "Enter the Password". A "Login" button is positioned below the password field. At the bottom of the form, there is a link "If you don't have an account, Register" with a "Register" button next to it. The browser's address bar shows the URL, and the Windows taskbar at the bottom indicates the system time as 12:25 AM on 11/8/2022.
